

Operating diary – self-monitoring of the operator

Series number: _____

Date:	Monthly controls: Operating times...				Specific incidents: e.g. power failure, error, desludging...
	Aerator/compressor [h/min]	Charging [h/min]	Clear water removal [h/min]	Sludge removal [h/min]	

As the operator of the wastewater treatment plant, you have the obligation to ensure a smooth operation of the system. In order to document your own controls, you are obliged to keep an operating diary.

You can also access this form on the internet at www.atbnet.eu --> Download --> Service --> Operating diary.
